WILLIAM KANWISHER AFFIDAVIT

I, William Kanwisher, hereby affirm that the following is true and accurate to the best of my recollection:

1. I am currently employed as an investigator for the Federal Defender in Baltimore. Previously I was a practicing criminal defense attorney, at both the state and federal levels.
2. From approximately July 1997 to February 1999, I was an associate lawyer at the firm Redmond Burgin & Gutierrez. During this period I worked exclusively for Cristina Gutierrez.
3. During our time together, I became familiar with her practice methods as a criminal defense attorney.
4. I was recently provided with a copy of an alibi notice letter that Gutierrez sent to the State in *State v. Adnan Syed*, Case Nos. 199103042-46.
5. Although I did not work on the *Syed* case, there are several inferences I can draw from the notice itself and from Gutierrez' practice methods.
6. First, I am sure Gutierrez knew, as I knew then, that such an alibi notice does not lock a defense attorney into a particular strategy. In other words, a defense attorney is always free to amend her theory of the defense – and in this case amend her alibi theory. Gutierrez would not have been shy about this, and she would not have felt bound by this notice.
7. Second, this notice strikes me as an attempt by Gutierrez to, among other things, sow confusion. This was typical of her tactics. The large number of alibi witnesses would have possibly caused the State to use resources and time to track down those witnesses and investigate their reliability. It is probable that the long list of alibi witnesses was, in part, a red herring.
8. Third, the notice strikes me as an effort by Gutierrez to keep all of her options open. That is, she included in the list all possible witnesses she was aware of to preserve her ability to later use any particular witness as an alibi witness. That would have been typically how she used these types of notices in the course of her defense – to keep her options open.
9. Based on everything I know about Gutierrez, and the notice itself, I think it is wrong to conclude that the alibi notice in any way indicates that Gutierrez made a strategic decision not to interview and/or call as a witness Asia McClain.

KRISTA REMMERS AFFIDAVIT

I, Krista Remmers, hereby affirm that the following is true and accurate to the best of my recollection:

1. I attended Woodlawn High School from Fall 1995 until Spring 1999. During that time I was a classmate of both Adnan Syed and Hae Min Lee.
2. At the time I attended Woodlawn, the high school campus was adjacent to the Woodlawn Branch of the Baltimore County Public Library.
3. It was common at the time for Woodlawn High School students to go back and forth from school to the library – and we did not consider doing so to be leaving the campus.
4. In a practical sense, the library served as an extension of the school campus.
5. At the time, if a student said he had been “at the high school,” this could have meant he was at the physical school campus, at the adjacent public library, or both.

How to read "Subscriber Activity" Reports

Please note: All call times are recorded in Eastern Standard time.

Type codes are defined as the following:

Int = Outgoing long distance call
 CFO = Call forwarding
 Inc = Incoming Call

Lcl = Outgoing local call
 Sp = Special Feature

When "Sp" is noted in the "Type" column and then the "Dialed #" column shows "W" and the target phone number for instance "#7182225555", this is an incoming call that was not answered and then forwarded to voice mail. The preceding row (which is an incoming call) will also indicate "CFO" in the "feature" column.

Outgoing calls only are reliable for location status. Any incoming calls will NOT be considered reliable information for location.

Blacked out areas on this report (if any) are cell site locations which need a court order signed by a judge in order for us to provide.

CONFIDENTIALITY NOTICE

This report contains information which is confidential and may be subject to the provisions of the Freedom of Information Act.

ABE WARANOWITZ AFFIDAVIT

I, Abraham Waranowitz, hereby affirm that the following is true and accurate to the best of my recollection:

1. I was a Radio Frequency (RF) Engineer, and I formerly worked for AT&T Wireless in the Baltimore-Washington area. I began working as an RF Engineer at AT&T Wireless in 1995 in Paramus NJ.
2. I was the State's expert witness with regard to cell tower technology in *State v. Adnan Syed*, Case Nos. 199103042-46. I was called as a State's witness and I testified on 2/8/00 and 2/9/00.
3. Just prior to my testimony, in the courthouse, Urick presented me with a document – which I was viewing for the first time – referred to as State's Exhibit 31. I remember reviewing one page of the document. Since this appeared to have ordinary AT&T cell site data on it, I accepted it as it was presented.
4. As an RF Engineer, I did not work with billing records (or subscriber activity reports) and had never seen AT&T Wireless billing or legal documents before I was presented with this document. RF Engineers worked with raw data from the switch. Billing records were separated from engineering activity for security and privacy.
5. What Urick did not tell me, or call my attention to, in relation to Exhibit 31, was that AT&T had previously issued the disclaimer that “Outgoing calls only are reliable for location status. Any incoming calls will NOT be considered reliable information for location.”
6. If I had known that it was AT&T Wireless' legal policy for incoming calls to not be considered reliable information in determining cell phone location, I would have inquired further within my organization and attempted to learn why this disclaimer was issued.
7. If I had been made aware of this disclaimer, it would have affected my testimony. I would not have affirmed the interpretation of a phone's possible geographical location until I could ascertain the reasons and details for the disclaimer.
8. I consider the existence of the disclaimer about incoming calls to have been critical information for me to address. I do not know why this information was not pointed out to me.
9. I first conveyed the information above to Justin Brown and his cell tower expert, Jerry Grant, in a telephone call on September 29, 2015.

ADNAN SYED,
Petitioner,

v.

STATE OF MARYLAND,
Respondent

Petition No. 10432
Original Case Nos. 199103042-46

AFFIDAVIT OF GERALD R. GRANT JR.

I, Gerald R. Grant Jr., hereby affirm under penalty of perjury that the following is true and accurate to the best of my knowledge and recollection:

1. I am a national expert in historical cell site analysis. I have worked on over 100 cases involving historical cell site analysis, and have been admitted as an expert on this topic in approximately 6 jurisdictions.
2. My C.V. is attached to this affidavit.
3. I work with Barry Scheck, Seth Miller and other members of the Innocence Network on historical cell site analysis. In that capacity as a consultant for the Innocence Network, I was asked by C. Justin Brown to review the cellular tower evidence that was used at trial in *State v. Adnan Syed* (captioned above).
4. I have reviewed the CONSOLIDATED RESPONSE IN OPPOSITION TO PETITIONER'S MOTION AND SUPPLEMENT TO REOPEN POST-CONVICTION PROCEEDINGS the State filed, as well as other documents associated with case. I have also spoken on the phone with the State's cell phone expert from trial, Abraham Waranowitz.

5. The AT&T fax cover sheet at issue in this case uses the term "location status," as well as the individual word "location" when stating the disclaimer for incoming calls.
6. In my experience working with many historical cell site analysis cases, major cell phone companies, and other experts in the field, these terms as well as others involving the word "location" have referred to identifying the approximate physical location of the cell phone/handset.
7. Cellular systems consist of multiple components in order to work:
 - Mobile Station (Cell phone/Handset)*
 - Antenna/Transponder*
 - Base Transceiver Station (Cell Tower/Sectors)*
 - Base Station Controller (Handles multiple Cell Towers)*
 - Mobile Switching Center (Handles multiple Base Station Controllers)*
8. Each of these individual items mentioned above play a specific roll when making or receiving a call on a cell phone. They are all associated with determining the approximate location of a cell phone/handset when performing historical cell site analysis. If information is not accurate from any of the components mentioned above, the estimated location of the cell phone/handset cannot be relied upon.
9. Individual documents, containing the detailed call activity that were provided by AT&T, appear to be Subscriber Activity Reports in different formats. Even though some of these documents were submitted as exhibits in incomplete form, the disclaimer on the fax cover sheet should apply to them.
10. I am willing to testify in court as to the use of the cell tower location evidence in this case.

Gerald R. Grant Jr.
